## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 31, 2007 has been entered.

Claims 1-7 are pending in the instant application.

### ***Allowable Subject Matter***

Claims 1-7 are allowed.

Regarding independent claim 1, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation wherein a fluorescent tube comprises an outer tubular portion that extends in a first plane about a center point has two inner portions within the outer tubular portion, spaced on opposite sides of the center point, and extending from a first peripheral side to a position proximate a second peripheral side of the outer tubular portion; a leg member connecting the ends of the inner tubular portion to supply power to the inner and outer tubular portions; an adapter member with an adapter body mounted at the center point of the inner tubular portions and an adapter arm extending from the adapter body and communicating with the leg member; and

Art Unit: 2879

power is supplied from power supply pins on the adapter body, through the adapter body, the adapter arm, and the leg member to the outer and inner tubular portions.

Regarding claims 2-7, claims 2-7 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.
